

Dear Stakeholders,

We would like to remind you that as per Clarification 1 Version 1.2 (<https://www.globalcarboncouncil.com/wp-content/uploads/2022/03/Clarification-No.1-v1.2.pdf>), A2-type projects (projects that have started operations post **1 January 2016** till date) that have not yet submitted their initial documentation to the GCC program must make an initial submission **on or before 4<sup>th</sup> July 2022 23:59 (Qatar time)** to be eligible.

Initial submission means the very first submission of the project documents (via the GCC project portal) referred to in the Program Process paragraph 15. The screening process will start after the initial submission.

Please note that a valid Initial submission includes

- Completed project submission form as per latest template ( with all sections filled in with project-related information as per the guidance for PSF filling) including details of LSC conducted.
- Emission reduction calculation spreadsheet as per applied baseline and monitoring methodology.
- Investment analysis spreadsheet (in case investment analysis is carried out to demonstrate additionality)
- Completed and Signed Letter of Authorisation/ Nomination.

<https://www.globalcarboncouncil.com/wp-content/uploads/2021/10/GCC-Program-Processes-v4.pdf>

In case any of the above is not submitted during the initial submission, or the PSF is submitted with details that are not related to the project, the submission will be rejected, and the project will not qualify under the type A2 category.

Everyone is encouraged to make their submission well advance in time to avoid any kind of technical or IT-related issues at the last moment, please note that all submissions **must be made through the GCC portal only and no direct submissions are allowed through mail.**

GCC Operations Team
